Govt. of Telangana

# About Us

## 6 to 6Teen Children's Edutainment Society

6 to 6teen Children's Edutainment Society was born two decades ago with a strong intention of offering a wholesome learning experience for students, being the only player in Hyderabad with a structured offering of out-of-classroom learning modules

The modules offered lessons in quintessential life lessons which are often ignored by mainstream education system and students are not assessed in these skills, only for them to realise the value of these much later.

Students love our modules, and especially parents were our strongest proponents of our growth story. Our monthly meet-ups for the kids through which an expert would address the students on the topic of the month, followed by an interactive sessions that involved experiential learning offered the young students an opportunity to learn from an expert and practice their learnings as a community, as they made friends and had fun while doing so.

Over the past two decades, we have refined our modules, grown our loyal user base and have diversified our offerings to support learning across students and through topics

In 2024, we strive towards impact - one we believe could be greater than thus far, as we announce 'Project Aranya'.

**We now strongly intend to create a platform for equitable opportunities to students from tribal communities.**

### ORGANIZATION AND MANAGEMENT

**K L Prasad**  
President

**Ramani Katta**  
Secretary

**Shreyas**  
Project Co-ordinator

## Project Aranya

'Aranya' for us represents the abundance and empowerment that forests represent, especially for some of us that not only depend on it for livelihood, we also worship it. 'Project Aranya' from the 6 to 6teen stable aims to provide the abundance of skills and exposure through monthly interactive lessons and empower the tribal students, one month at a time.

We will provide lessons from industry experts in topics such as **consumer awareness**, **financial literacy**, **story telling** and **theatrics** in a fun and extremely palatable manner. This is our homage to one of the most resilient communities that have persevered through time and have preserved their culture and faith

# PROJECT ARANYA

## Mission and Vision

### MISSION

To offer requisite life skills through out-of-classroom learning modules and to create an equitable platform for students from tribal backgrounds

### VISION

To empower tribal youth and communities with access to best-in-class learning opportunities

# Timeline & Commercials

Project Aranya aims to be the most well-packaged and palatable out-of-classroom learning experience for tribal youth.

The most significant challenge of the project remains the introduction of learning content to the students - if not done well, it might further heighten the apprehension of the tribal communities and thereby increase the divide further.

Our proven experience with students across the state and ages gives us the pole position to craft and deliver this the best and we strive to do exactly that.

1

Delivery - Phase 1

2

Course Refinement

3

Full-scale rollout

Financials - Impact & Timeline	Value
Option 1 300 students for 3 months	₹ 7,50,000
Option 2 400 students for 3 months	₹ 9,50,000
Option 3 400 students for 3 months + field trip	₹ 10,50,000

# Project Goals

## JFM'24

Impact goals for Project Aranya for the upcoming quarter

400

Youth

**Access to alternative learning to 400 students**

Government schools in association with the Telangana state govt (Tribal welfare department)

3

Modules
